## ANALYSIS

This is the first Extension of Time for the subject Rezoning (ZON-4623), which was approved by the City Council on 01/19/05. A Rezoning is exercised by means of the recordation of a final subdivision map or by the commencement of actual construction. No Final Map has been submitted at this time, as well as no building permits have been issued for the proposed development; however civil improvement plans [HANSEN Project #12773] were reviewed on 04/20/06 and are pending the submittal of mylars for final signatures. The applicant indicates that the Extension of Time is needed so that they may complete the design phase of the project and process their Final Map(s) to recordation.

## FINDINGS

Staff supports the subject Extension of Time for the approved Rezoning. The approved Rezoning continues to conform to the use and density classifications of the General Plan, as well as remains consistent with the surrounding area and the pattern of development in the area. In addition the applicant has demonstrated that they are working towards development of the subject site. A condition of approval has been added, which recommends that the extension be allowed for two years or until such time as another Extension of Time application is approved.
